Tveitafoss kraftverk – høringsuttalelse til konsesjonssøknad

BKK Nett er utredningsansvarlig for regionalnettet i BKK-området og indre Hardanger.

Vi har fått konsesjonssøknaden for opprustning av Tveitafoss kraftverk på høring.

Det er to alternativer:

- Alternativ 1 hvor eksisterende aggregater beholdes med total installert effekt 1,7 MW.
- Alternativ 2 hvor ett aggregat beholdes i tillegg til at det bygges en ny stasjon. Total installert effekt blir 5,5 MW.

Tveitafoss kraftverk mater inn i Klyve transformatorstasjon med nettilknytning videre til Sima.

Som utredningsansvarlig har vi ingen kommentarer til de to omsøkte alternativene. Det er tilstrekkelig nettkapasitet i regionalnettet.

Vennlig hilsen
BKK Nett AS

Sonja Marie Risser
Spesialrådgiver

Concepts and Abbreviations

SEID-SDO

The SEID SDO is a XML based data package designed to act as a self-contained validation of one or more digital signatures on one or more documents. The reason for this format is to be able to confirm non-repudiation and integrity of the signed document independent of time.

PAdES (PDF Advanced Electronic Signatures)

The PAdES file is a PDF compliant with the PAdES standard, which means that anyone with a regular PDF reader can see what was signed, by whom, and how it was signed. Evidence of every completed signature is embedded within the PAdES, which enables evidence to be unfolded in case of a dispute. The PAdES standard is published by ETSI.

BankID (NO)

BankID is an electronic credential for secure identification and signing on the web. Instead of ballpoint pen, passport and paper, you can use regular BankID with code unit or app or BankID on mobile.

Buypass

Buypass offers electronic identification, electronic signature and payment solutions. Buypass is the only provider of international approved SSL certificates in Norway. Buypass is partially owned by the Norwegian government through the Ministry of Culture. (<https://www.regjeringen.no/en/dep/kud/id545/>)
